Customer	Problem
<p>HERITAGE POINTE HERITAGE POINTE 801 HUNTINGTON AVENUE WARREN, IN 46792-0326</p> <p>Who called: Jim Asher</p>	<p>INSTALL CONTROLS IN ACTIVITY ROOM 5/27 AJ Created Database tables for activity room fcs. assigned Uuid for bms. started writing backend and local logic. 5/28 NH Worked on replacing Water valves in activity room 2. had to redo the piping, customer supplied all copper pipe and fittings. Andrew supplied the valves/actuators. 5/28 JT, Deniro: Controls Activity Room: Pulled wire for Second floor fan coil units. Mounted box in corner kitchen cabinet. 5/29 JT, Deniro: Wired controls floor fan activity room. 5/30: JT, Deniro: Controls Activity Room: Connected 1st floor to 2nd floor with core drill. Ran wire to first floor fan coil unit. 6/3 JT, DB: Controls Activity: Ran wiring to the last unit on first floor east side to second floor. Also ran wiring from second floor to first floor to pickup room sensor. **Next room over is the first floor chiller room, the Havel controls stopped working. Wired around to bring on Chiller system. System is running ok at this time in hand. Will need new ticket number for next control job here. **Also had steam issue in Fahl Basement. Heating system is offline at this time. Will need a proper fix before moving forward. 5/30/2025 LJB picked up 2 zone sensors and box of 18/3 shielded wire 5/29 Started building out backend architecture for logic factory and logic processor. 5/30 AJ Walked LBJ Thru programming multi unit integrated control. 5/6 aj Commissioned activity rooms and have them running off of local logic until i get them integrated into the processing engine of the bms.</p>
